

Ulti-MATE Garage – STYLE & STRENGTH

Developed to add functionality, durability and modern style that exemplify true garage styling, we proudly introduce the **Ulti-MATE Garage** line from BH North America.

This state of the art system offers modular flexibility to add or change your garage system at anytime as your organizational needs change to insure maximum garage efficiency. Garage transformation is no longer only for the car enthusiast, but for the discerning home owner that wants their garage to be a welcoming and useable room of the house that's not filled with clutter– a place to work, entertain and to increase your home value.

Through modern design, the Ulti-MATE Garage line is built using a unique process of polyurethane coating over strong $\frac{3}{4}$ " MDF doors and drawer fronts for distinct styling, full radius cabinet profile for a clean and refined look, $\frac{3}{4}$ " strong PB cabinet construction, $\frac{3}{4}$ " shelves, thermofused textured PVC laminate, MDF worktop surfaces, Euro hardware includes adjustable hinges and pre-assemble $\frac{3}{4}$ " extension ball bearing drawer glides for ease of use and reliability, oversized brushed Chrome handles/pulls, 4" adjustable Aluminum feet, high-end steel KD hardware for ease of assembly and high load rating, easy to read detailed installation instructions for time savings and much more.

Ulti-MATE Garage PRO – STYLE & INDUSTRIAL STRENGTH

Developed to add functionality, durability and modern style that exemplify true garage styling, we proudly introduce the **Ulti-MATE Garage PRO** line from BH North America for the most discerning projects.

This state of the art system offers modular flexibility to add or change your garage system at anytime as your organizational needs change to insure maximum garage efficiency. Garage transformation is no longer only for the car enthusiast, but for the discerning home owner that wants their garage to be a welcoming and useable room of the house that's not filled with clutter– a place to work, entertain and to increase your home value.

The Ulti-MATE Garage PRO line has some similar features to our Ulti-MATE Storage and Ulti-MATE Garage lines, but with "added horsepower" by increasing $\frac{3}{4}$ " thick shelves to 1" fully wrapped and edge banded shelves with twice the weight load rating, full extension ball bearing drawer glides with twice the weight load rating, twice the thickness of handles/pulls, ability to hang lower 35" high base cabinets, 2' taller (6") adjustable feet and unique Silver color cabinet fronts over Grey cabinet.

Features include; unique process of polyurethane coating over strong $\frac{3}{4}$ " MDF doors and drawer fronts for distinct styling, full radius cabinet profile for a clean and refined look, $\frac{3}{4}$ " strong PB cabinet construction, 1" shelves, thermofused textured PVC laminate, MDF worktop surfaces, Euro hardware includes adjustable hinges and pre-assemble full extension ball bearing drawer glides for ease of use and reliability, jumbo size brushed Chrome handles/pulls, 6" adjustable Aluminum feet, high-end steel KD hardware for ease of assembly and high load rating, easy to read detailed installation instructions for time savings and much more.

Ulti-MATE Storage – STYLE & STRENGTH

Developed to add functionality, durability and modern style that exemplify true garage styling, we proudly introduce the **Ulti-MATE Storage** line from BH North America.

This state of the art system offers modular flexibility to add or change your garage system at anytime as your organizational needs change to insure maximum garage efficiency. Garage transformation is no longer only for the car enthusiast, but for the discerning home owner that wants their garage to be a welcoming and useable room of the house that's not filled with clutter– a place to work, entertain and to increase your home value.

Developed to be consistent with cabinet spec of our popular Ulti-MATE Garage cabinet line, but to offer a new color to celebrate our companies 100-year anniversary. Ulti-MATE Storage differs only from Ulti-MATE Garage line in cabinet color (Starfire Pearl & Grey versus Graphite Grey & Black) and how we applied color to cabinet front. One is not better than other, but merely a color choice.

Through modern design, the Ulti-MATE Storage line incorporates a most unique Starfire Pearl with Metallic color on cabinet fronts to truly turn heads in any room of the home or business, all while providing strong cabinet construction to meet diversified uses in many applications. Feature include; strong $\frac{3}{4}$ " MDF doors and drawer fronts with unique PVC laminate for distinct styling, full radius cabinet profile for a clean and refined look, $\frac{3}{4}$ " strong PB cabinet construction, $\frac{3}{4}$ " shelves, thermofused textured PVC laminate, MDF worktop surfaces, Euro hardware includes adjustable hinges and pre-assemble $\frac{3}{4}$ extension ball bearing drawer glides for ease of use and reliability, oversized brushed Chrome handles/pulls, 4" adjustable Aluminum feet, high-end steel KD hardware for ease of assembly and high load rating, easy to read detailed installation instructions for time savings and much more.
