Environments

- Healthcare
- Institutional
- Schools & Universities
- Office Buildings

Additional Product Information

- ▢ Rejuvenates gloss level with routine cleaning.
- ▢ Only 2-3 coats required for initial application.
- ▢ Less strip & polish means less down-time and reduced maintenance costs.
- ▢ Contributes to Environmentally Friendly Initiatives: Improved Indoor Air Quality & Reduced Water Usage
- ▢ Unique blend of detergents, waxes & polymers.
- ▢ No rinsing required after cleaning process.

Directions for Use

Initial Application Coverage:

Single coat (undiluted): 1500-2000 square feet per 1.33 gallons depending on porosity of flooring material. 2-3 coats required for Initial Application. (See product label for detailed instructions.)

Daily Cleaning:

Dilute 1oz Hilway Direct Plus per 1 gallon warm water. Use with automatic scrubbing equipment or mop & bucket. Do not rinse floor after cleaning. Allow to air dry.

Alternate routine cleanings between Hilway Direct Plus and Hilway Direct Neutral Cleaner to prevent excessive buildup of polish and reduce strip & polish cycles. (See product label for detailed instructions.)
